

IIBT is pleased to announce a new articulation agreement with **Bond University**

Times Education Group is very pleased to announce IIBT's new articulation partnership with Bond University, offering credit recognition to more of our courses and graduates.

Bond University is Australia's leading independent, not-for-profit university. Bond offers a personalised academic environment that prepares students for success in their future careers, goals and endeavours.

Bond students learn in world-class facilities from world-renowned academics, in smaller class sizes that allow their academics to be mentors, not just teachers. Students at Bond are prepared for the global workforce by gaining international experience during their degrees, inside and outside of the classroom.

A degree from Bond is not only an investment in your future; it's an investment in lifelong friendships, once-in-a-lifetime experiences and worldwide connections.

Students from IIBT who study higher education diploma of Business Administration can gain credit towards a Bachelor of Business or Bachelor of Commerce at the Bond University.

We are looking forward to working more with this fantastic partner.

Times Education is pleased to receive **Innovation Grants from English Australia & Federal Government**

Two of the schools in the Times Education family have received Innovation Grants from English Australia and the Federal Government. The purpose of the Innovation Fund 2021 grant, which commenced on 3 June 2021, is to allow eligible Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS); registered private higher education and private English Language Intensive Courses for Overseas Students (ELICOS) providers a grant of up to \$150,000 to change their business models.

Times Academy will work on an exciting new project to create online interactive and innovative pathways programs for English for High School Preparation and English for Academic Purposes. This will be paired with a Pathways Portal to market our educational partners and pathways around the globe.

IIBT is excited to be developing a Master's Degree in Cybersecurity Program. This will be a post-graduate qualification in a highly sought-after sector where a lot of growth and demand is anticipated.

It is an exhilarating time to be delivering these in-demand and innovative programs and our team is working hard to launch these projects by 2022.
