## WHAT IS EDUHUB?

An incredibly comprehensive system, EduHUB, makes it easy for agents to manage every single student. Registration forms, acceptance letters, payments, and Electronic Confirmation of Enrolment (eCoE) can be handled directly on EduHUB, while each stage of the application process can be precisely tracked.

EduHUB can also track the progress of students' tuition fees, remind agents about the upcoming payment of each student, and the expiration date of their visa. Of course, this all occurs in real-time allowing agents to help students plan their life in advance.

EduHUB is a unique and innovative management platform that has been carefully designed and developed to suit the needs of agencies. Agent directors manage the work progress of their teams, and systematically analyse the application

progress including successful registrations of each individual agent which is useful for performance assessments. EduHUB allows multiple permission levels offering a level of discretion around specific commission rates, for example.

Agents reported that they are excited about EduHUB's automatic billing system because it helps them track commissions, that they can use commissions to pay students' tuition fees transparently which easily translates to a greater ability to provide value to students by paving a smoother path to enrolment.
